 2. Dial the extension number to which you want to transfer the call.
 3. For an announced transfer, when the recipient answers, announce the call, press the **Xfer** button again to complete the transfer, and then hang up. If the recipient does *not* want to take the call, retrieve it by pressing the Access button on which the call originated.
- For a blind transfer, as soon as you hear a full ring, press the **Xfer** button and hang up. (If you press the **Xfer** button too soon after you dial the number, the transfer may not occur.)

 5. Repeat steps 2 through 4 to conference in a fourth party.
- At least one party must be internal. The conference ends when the last internal party hangs up.
 - To place your part of a conference call on hold, press **Hold**. The other parties can talk to each other, but they cannot hear you. (Music on Hold is not played.)
 - To transfer a conference call, see **Transfer a Call**.
