

NBX[®] Entry Telephone

Quick Reference Guide

Put a Call on Hold

1. While you are on a call, press and release the telephone hook switch. You hear dial tone. Do not replace the handset in the telephone cradle.
2. To return to the call, press the hook switch again.

Put a Call on Hold and Dial Another Call

1. Put the existing call on Hold.
2. When you hear the dial tone, dial the second call.
 - If you hang up without returning to the call on hold, your telephone rings to reconnect you to the call on Hold.

Transfer a Call

1. Press and release the hook switch to put the call on Hold. Do not replace the handset in the telephone cradle.
2. When you hear the dial tone, dial the number to which you want to transfer the call.
3. When you hear ringing, hang up (a blind transfer), or wait until the recipient answers, announce the call, and then hang up. To reconnect to the caller without completing the transfer, press and release the hook switch again.

Make a Conference Call

1. Place or receive a call. Two parties are now on the call.
2. While you are on the first call, press and release the hook switch or press **Feature + 430**.
3. When you hear dial tone, dial the third party, wait for that party to answer, and press and release the hook switch or press **Feature + 430** again to complete the three-party conference call.
4. Optionally, repeat steps 2 and 3 to add a fourth party.
 - At least one party must be internal. The conference ends when the last internal party hangs up.
 - To place your part of a conference call on hold, press and release the hook switch. The other parties can talk to each other, but they cannot hear you.
 - To drop the last person whom you added to the conference (for instance, if the called party's telephone is answered by someone else), press **Feature + 431**.

Adjust the Volume

- **Handset** — Lift the handset, listen to the dial tone, and repeatedly press the louder or softer volume button.  
- **Ringer** — While the telephone is ringing, repeatedly press the louder or softer volume button.

Redial a Call

Pick up the handset and press **Feature + 401** to dial the most recent number you dialed.

Switch Your Telephone to Do Not Disturb

(Calls go immediately to your call coverage point.)

Pick up the handset and press **Feature + 446**. All calls go directly to your call coverage point without ringing on your telephone. To turn the feature off, pick up the handset and press **Feature + 446** again.

Forward Incoming Calls to Your Call Coverage Point

(Calls ring once then go to your call coverage point.)

Pick up the handset and press **Feature + 441**. All calls go to your call coverage point after ringing once. To turn the feature off, pick up the handset and press **Feature + 441** again.

Park a Call

1. While you are on a call, press **Feature + 444**.
2. Dial one of the extensions reserved for Call Park.
 - 3-digit dial plan** — 601–609
 - 4-digit dial plan** — 6000–6099
 - Ask your administrator if your system has a different range of Call Park extensions.
 - The call is parked until someone retrieves it, the caller hangs up, or the Call Park timer expires.
 - If the extension you chose is busy or the Call Park timer expires, the call returns to your telephone.

Retrieve a Parked Call

Dial the Call Park extension where the call was parked.

Lock Your Telephone

Pick up the handset and press **Feature + 432**. To turn the feature off, pick up the handset and press **Feature + 432** again

- When Locking is activated, only calls to internal extensions or calls to an emergency service (such as 911 in the United States) are permitted.
- When Locking is activated, your Off-site Notification choices remain in effect.

Access Other Phone Features

The NBX NetSet™ utility, Personal Settings, enables you to access all telephone features. You can also access the *NBX Entry Telephone Guide* and NBX NetSet Help for information about telephone features.
